Summary

Data analytics professional with 7+ years of experience across digital analytics, customer journey, and performance measurement, translating customer behavior into actionable insights for strategic decision-making.

Proven ability to design and implement end-to-end analytics tracking frameworks across web, media, and lead funnels. Expertise includes GA4, CDP and comprehensive funnel analysis, supporting customer nurturing and executive strategy through performance measurement.

Work Experience

Data Analytics Manager | Ogilvy & Mather (Thailand) (May 2025 – Feb 2026)

- **Led digital performance and customer journey analysis** using traffic and multi-step lead funnel data to identify drop-off points and prioritize optimization efforts.
- **Worked with Strategy and Media teams to shift performance evaluation** from traffic volume to engagement and intent-based metrics, helping improve lead efficiency during traffic fluctuations.
- **Used CDP behavioral data to segment users by intent and behavior**, supporting customer nurturing and personalization across different decision stages.
- **Shared insights and recommendations with stakeholders**, translating performance data into clear user behavior insights and using evidence to challenge assumptions.
- **Designed and managed analytics tracking across digital assets** using GA4, GTM, and CDP (Twilio Segment), ensuring consistent data through website revamps and major campaigns.

Senior Data Analyst | EVme Plus Co., Ltd (Aug 2024 – May 2025)

- **Designed and implemented tracking strategies** using Google Analytics, Amplitude, and other platforms to collect and analyze web and mobile data.
- **Built and maintained interactive dashboards** in Looker Studio for real-time monitoring of product and business performance.
- **Conducted deep-dive analyses to uncover user behavior trends**, funnel friction, and growth opportunities.
- **Collaborated with product, marketing, and business teams** to translate insights into actionable initiatives.
- **Managed external analytics vendors** to ensure data accuracy, governance, and reporting quality.

Senior Data Analyst | Conicle Co., Ltd *(May 2022 – Jul 2024)*

- **Developed cross-functional dashboards** supporting Sales, Customer Solutions, Finance, and Product teams.
- **Executed advanced SQL queries** in BigQuery to extract behavioral and performance insights.
- **Designed ETL workflows** using Python and Airflow, collaborating closely with data engineers.
- **Worked with data scientists** to enhance insight depth and business relevance.
- **Led analytics project planning, balancing resource** constraints with business priorities.

Data Analytics Manager | Predictive Co., Ltd *(Nov 2021 – Apr 2022)*

- **Led project planning and resource management** for analytics initiatives.
- **Oversaw workflow optimization** to enhance efficiency and stakeholder collaboration.
- **Maintained project documentation and launched new data-driven projects** to drive business growth.

Senior Data Analyst | Predictive Co., Ltd *(Jun 2019 – Nov 2021)*

- **Analyzed web and campaign performance** using Google Analytics.
- **Built multi-source dashboards and standardized reporting** frameworks.
- **Create guideline documents for data collection and analytics** to optimize efficiency and quality.
- **Conducted website and application audits**, providing technical analytics recommendations.
- **Delivered training sessions to clients** on analytics usage and interpretation.

Implementer (Functional Consultant) | Charoen Pokphand Foods *(Jul 2017 – Jun 2019)*

- **Analyzed business requirements** and designed customized workflow solutions.
- **Implemented and tested** enterprise software solutions using K2 platform.
- **Provided post-launch support and trained** end-users on system usage.

Education

- **2013 – 2017: King Mongkut's Institute of Technology Ladkrabang**
Bachelor of Science, Information Technology, GPA: 3.67 *(First Class Honors)*
- **2010 - 2012: Nawaminthrachinuthit Triamudomsuksanomklao School**
Major Science-Mathematics, GPA: 3.33

Skills

- **Data Visualization:** Looker Studio, Power BI, Tableau
- **Data Processing & Management:** SQL (BigQuery), Airflow, Google Sheet
- **Web & App Analytics:** Google Analytics 4, Google Tag Manager, Amplitude
- **Customer Data & Segmentation:** CDP (Twilio Segment), Behavioral & Intent Analysis
- **Analytics Operations:** ETL Design, Data Pipeline Coordination
